

INNOVATION IN
WORKING ENVIRONMENTS

Matis®

Matis®

Segmented Panel System

Thanks to its multiple alternatives in shapes and sizes, this line offers endless options for you. Bring your personal touch to each space of your organization and customize it with the look and design that best suits your needs.

Conservative or modern style, Matis allows you to arrange workstations at 90° or 120° with storage units strategically located to

offer greater functionality. Its 3D growth alternative feature enhances space use and budget efficiency.

Matis is your solution to create operative and collaborative areas, or floor to ceiling offices; as well as private areas such as boardrooms or training centers.

① Power and data can be routed horizontally through openings on the frame.

② Power and data can be routed vertically within frames and through connectors.

③ Power harnesses are modular, non-handed, and install easily. Two modular connection points at the end of each power harness allow branching of power. Receptacles and data outlets can be located at the

④ base, above and below (optional) the worksurface.

⑤ Power and cables can enter the system through ceiling power entries and at the base of the frame.
