

**INNOVATION IN
WORKING ENVIRONMENTS**

Benching System

Kios offers a design with great flexibility to adapt to a highly functional and independent workstations.

Kios allows a direct interaction where a continuous collaboration is required. It's clean structure facilitates freedom of movement thanks to its open bases. These qualities are highlighted with a tray system below the worksurface to hide and distribute power and data wiring.

Its multi-functional beam allows the placement of dividing screens for more privacy.

Also, complementary items such as strategically located cabinets and shelves can be added. Kios can be customized according to your corporate or brand identity allowing you to bring your personal touch.

Height Adjustable Tables

Cali is ergonomics and a sleek design at its finest. If you are interested in providing a solution to a high demand of furniture that adapts to the user's needs, Tremain has partnered with a leading supplier of adjustable height components to engineer a premium line of tables that are part of Cali.

Cali reflects a modern design that can compliment any existing or new collaboration area.

Cali offers Flip top tables as well as height adjustable and mobile bases to take your workspace to a new level.

Lance has the perfect answer to fulfill any file and storage necessity. It fits great with any of your projects with a uniform and functional style.

There is no office complete without a reliable and practical storage solution.

Panel System

This Link panel system is the upgraded and updated version of our Task panel system.

Among its outstanding features, you can find the integration of a metal frame, floor to ceiling design up to 110 inches, sliding doors, power at worksurface/beltline height and a renewed storage system to complement its contemporary design.

Link has a clean design with flush raceway covers and squared 2, 3 and 4 way connections.

The Link's panel system can create a dynamic office environment that meets the needs of your projects. It is ideal for a wide range of uses and applications modern always at your fingertips.

Panel System

The Matis panel system is not your normal panel system. The design capabilities of Matis is endless as it can provide a workstations for today and be redesigned into a private office in the future. Bring your personal touch to each space of your organization and customize it with the look and design that best suits your needs.

Matis has a great product offering of different types of tiles ranging from metal to fabric to tool rail to glass and many others. Matis has a conservative or modern style allows you to arrange workstations at 90° or 120° with storage units strategically located to offer greater functionality.

Matis is your solution to create operative and collaborative areas, or floor to ceiling offices; as well as private areas such as boardrooms or training centers.

Executive Furniture

The Hub furniture series is very important to fulfill the quality and comfort with your office needs.

The Hub series was created to provide executive offices and boardrooms with creative tables that allow many ways to customize the electrical accessories for whatever your needs may be.

Organizational Furniture

The Axis beam is an efficient power beam that allow you to value engineer a floorplan in place of the traditional panel system. Its main feature is the easy access to the power and data throughout the space.

The Axis beam will allow everyone to be within reach of power or data and it can also provide divider options to keep separation between employees.

Collaborative Furniture

One of its main characteristics is the possibility to cover a space with different configurations thanks to a fast and easy rearrangement that allow it to adapt to any environment.

Trend System is characterized for achieving organic, geometrical and dynamic designs in which the user experiences a relaxed and aesthetic space that inspires to work creatively and with comfort.

Is the most versatile, modern and configurable line because it offers multiple configurations allowing space optimization and work efficiency.

Free Standing Desking System

Team has been designed for organizations with an innovative vision, under the concept of collaboration in open or private spaces.

Team has created and enhanced the concept of workstations with an unlimited modular system that allows each user to define its dimensions and configurations such as linear, square and 120 degrees. It can also be organized into unusual distributions.

Team can be very useful with creating workstations, multipurpose spaces and conference rooms are some of the collaborative projects.

Team's versatility allows you to add accessories such as light walls or divisions with different finishes and sizes.
