 **Team®**

 **Axis®**

 **Cali®**

 **Hub®**

 **Flow®**

Kios offers a design with great flexibility to adapt highly functional and independent workstations. This line allows a direct interaction where a continuous collaboration is required.

Link is an updated version of the longest tenured products in the industry that is designed to be configured in any environment to suit most all applications.

Matis is a segmented panel that will harmonize with the architecture and interior design, a highly flexible and adaptable system. It can also be used in floor to ceiling applications.

Team is a contemporary desking system that works for virtually any person and any task. Highly adaptable, Team allows standard workstation designs as well as private offices.

**Axis®**

Axis is a dynamic and functional power bar system with easy connectivity and access through a configurable beam. Axis give you the ability to adapt to many different layouts.

Cali is a unique table line that can have matching bases with different functionality. Cali is height adjustable, training room, break room and nesting/ flip top tables.

**Hub**®

Hub was designed to create solutions for just about any conference room. It's different shapes and sizes make it unique in the industry.

**Flow**®

Flow is available in a variety of sizes that can be assembled easily to create an office that will impress your visitors. The quality of Flow is built to last for years of usage.
